

Dear Mr Young,

You will be aware of the submission provided by the Game Developers' Association of Australia (GDAA) in response to the Review of Australian Government Film Funding Support.

Being the proprietor of a fledgling game development studio I am acutely aware of the extreme difficulties faced by small enterprise in the Australian computer games industry. I hope that you are willing to listen to the Australian games industry when we ask to be 'given a fair go'. Please take action to create equality between the film and games industries; you'll be amazed at what we will achieve.

Copper Chip Enterprises strongly supports the GDAA submission and urges Government to move quickly to address these key barriers to future industry growth.

Yours sincerely
Ty Newton
