

Dear Mr Young,

The Game Developers' Association of Australia has provided a submission to the Review of Australian Government Film Funding Support.

Torus Games strongly supports this submission and urges Government to move quickly to address these key barriers to future industry growth.

The Australian Games Industry currently exists in a virtual vacuum of investment incentives and government support.

The industry boasts almost 100% export income but we are still only achieving a small market share of a US\$50 billion industry that has been growing faster than virtually any other sector for a number of years now, and with no signs of this growth slowing down any time soon.

Other governments such as the UK and Canada have recognised this potential and are aggressively supporting their local games industry. Australia needs to follow suit if we're to achieve the potential growth that we need to continue competing globally.

Yours sincerely

Bill McIntosh
Managing Director
Torus Games Pty. Ltd.
