Short submission (text box 500 words or less)

Please provide more funding to support live music venues (ask your states how many music venues have shut down in the last year, the last two years and the last five years - it is a horrifying number).

More initiatives to get people out of the house supporting arts - Unlimited time vouchers up to \$200 per person to spend on arts annually as this has wildly benefited businesses and artists.

Continued support for Western Sydney arts workers and more genre specific funding - we have a huge metal scene in Australia that would greatly benefit from national investment.
