

National Cultural Policy Submission

1468424

Public and anonymous

Short submission (text box 500 words or less)

At present most support appears for the indigenous community. Government has been neglecting the arts & entertainment for non indigenous. Support for arts & media appears covered in the cultural policy however the reality is very different. Funding has been withdrawn or reduced for many in the arts & entertainment sector under Labor. Our cities & regional areas have been abandoned culturally by this Government.
