Short submission (text box 500 words or less)

As an 85 year old, priority issues are accessibility to arts precincts and libraries, and opportunities to participate as much as possible. I have been a member, volunteer and manager of community arts organisations and their importance in this age of isolation and alienation - and mechanisation of talent and creativity - is mandatory for the continuance of peace and harmony in society. Please also support businesses such as book stores. To be able to locally browse amongst books and source a book for a gift or for my own enjoyment is such a pleasure and is becoming increasingly difficult. They also support local authors and we get to know them and our community through their promotions. Our Society is built on the Great God Economy after all, and making a living out of the arts is an important part of the mix.
