Short submission (text box 500 words or less)

A cultural policy must include all the meaningful benefits of the arts and include personal satisfaction, intellectual stimulus and development, economic benefits to name a few.

Music education, for one thing, is gratifying yet seriously lacking in most of our schools. The benefits of music education are well researched and the proof is that music students achieve higher results in the maths and sciences and are more empathetic.

Music and the Arts are essential to a functional society and should never be taken for granted.
