I like that this has funding for game and film creators. I'd like to see the government bring back the requirement to have international music artists have an Australia opening act. I'd also like to see stricter requirements for ABC radio/rage to play a higher quota of Australian music. All music festivals sponsored by triple J should be required to host a percentage (maybe 30%?)

Of Australian artists. I'd like to see more tax breaks for small venues to stay afloat.
