Individual

Andrea Waycott

Short submission (text box 500 words or less)

To Federal Policy Makers,

My name is Andrea Waycott, and I am a professional [REDACTED] based in [REDACTED] Australia.

My industry contributes immensely to our nation's cultural identity and economy, yet we are facing an unprecedented, unregulated threat from Artificial Intelligence. I am writing to urgently request that the Federal Government act on three critical policy implementations:

**Mandatory AI Labelling:** We need immediate legislation making the labelling of AI-generated content mandatory. This is vital to protect the jobs of human creatives and ensure transparency for the public.

**Individual Identity is shielded.** Likeness, voice, etc., are lawfully protected from unauthorised use through effective policy.

**Enforceable Minimum Pay for Voice Artists:** We must establish enforceable minimum rates of pay for Voice Artists. Without baseline financial protections, fair competition is impossible, and we simply cannot afford to live.

Please ensure that future federal policy protects human workers, preserves the integrity of our arts, and keeps our industry viable.

Thank you for your time and your commitment to supporting human creativity.

Sincerely,

Andrea Waycott, Professional [REDACTED]

[REDACTED] Australia
