Individual

Short submission (text box 500 words or less)

I already made a submission, but in hindsight a recommendation I would also like to make, is to include production and technical people on the skilled occupation list.

Apparently 11% cancellations of performances have occurred due to technical labour shortage around Australia. This statistic is taken from the recent Pac, Australia report with information derived from venues across Australia. <https://paca.org.au/about/about-pac-australia/>
