Cultural Policy

Submission

My name is Juno Gemes I have worked as an an artist , writer , photographer , publisher with work across all sectors in major galleries and publications around the world .

In Europe and UK Artists Studios and homes are acquired by the State after they passed as a living memorial to those artists of national significance - to inspire future generations of artists and give them inspiring environments to create in :

I suggest The Arts Ministry acquire [REDACTED] as an artists residency- for a writer/ poet a photographer / painter to The Robert Adamson and Juno Gemes Residency .

We have lived and developed this home studio over 40 years and have hosted artists of renown here over that time .

The house also contains a priceless Poetry Library created by Robert Adamson and a similarly priceless Photography and Art Library curated by Juno Gemes .

The studio also has a Dark Room with two Leitz Enlargers :

The Gemes - Adamson Art House needs to be administered by Julie Robb who is also currently Chair of Performance Space :

This is my proposal to Arts Minister Tony Burke who expressed his gratitude to Poet Robert Adamson for his life long work as Poet / Editor and Publisher .

2 It is suggested that the Ministry of Arts support an annual Robert Adamson Poetry Prize and an annual Robert Adamson lecture at The National Library of Australia to be run by The National Library of Australia .

Thank you

Juno Gemes- Adamson
