Public

Organisation

Centralian Middle School Clontarf Academy

Short submission (text box 500 words or less)

The Alice Springs Cinema has been a great supporter of the Clontarf Foundation, and its academy members by being accommodating when we go to the movies, with discounts, culturally appropriate behavior toward our lads, showing our lads the right way to behave when in public and being very accepting of their cultural differences. The Alice Springs Cinema has also been amazing with our members with work site visits and employment. We have done multiple worksite visits with them over the years; Rene and her team have always been so patient and understanding when we go on these, showing our indigenous members around the cinema, front of house, upstairs, giving them great insight as to how the cinema functions. Rene has also employed lads from our program, training them up to begin their work career the right way. We really appreciate what Rene and the Alice Springs Cinema has done for the Centralian Middle School Clontarf Academy over the years, and I believe that they should absolutely be included into the National Cultural Policy.
